

Terminal Operator – Permanent Position – Marsden Point

Channel Infrastructure - New Zealand's leading fuel infrastructure company is the essential connection in New Zealand's energy network. We receive, store, test, and distribute transport fuels safely, reliably, and efficiently to the Northland and Auckland markets. At our Marsden Point site we store up to 280 million litres of fuel which is delivered via our 170 kilometre pipeline directly to Auckland.

Our business relies on safe and reliable operations and that's where you come in. We're looking for a permanent Terminal Operator to look after the day-to-day operation of our infrastructure and make sure everything is working 24/7. The primary role of this position is to execute operations at the terminal and to ensure uninterrupted plant availability to meet customer commitments. This requires disciplined execution of routine operational and maintenance tasks to maintain HSSE Compliance, technical integrity, and rigorous controls during non-routine activities. This role is shift work on a 5-week rotational roster which means you will be required to work more than 40 hours in some weeks. However the average hours worked per week over a 12 month period will be no more than 40 hours.

Core Duties include (but not limited to) are:

- Carry out routine checks and rounds according to the established standards, identify malfunctioning equipment, taking action to remedy the problem or raise notifications for repair
- Complete minor maintenance tasks directly where needed
- Participate regularly in fire, rescue and BA training to ensure familiarity with first response procedures and to provide 1st line emergency response capability.
- Assist with maintenance, repair and testing of fire systems and emergency response equipment.
- Ensures safe handling of chemicals by being conversant with chemical data and safe-handling procedures for these chemicals

We mentioned 24/7 operations, and need you to be adaptable, so that does mean we need people who are happy to do shift work. In return we'll invest in you by providing comprehensive training and development, and room to grow in a work environment that is inclusive and diverse – a place where you can be yourself, problem solve and share your ideas.

Along with a competitive salary (range between \$75,000 - \$80,000) we offer:

- KiwiSaver employer matching contributions
- Discounted premiums to health insurance
- Income protection
- Five days Company Leave in addition to Annual Leave entitlement
- 15 days sick leave
- Training & Development

All of this in sub-tropical Northland where there really is a work-life balance and plenty of activities like Fishing, Diving and Hiking on your doorstep.

Key Competencies

- Terminal experience would be an advantage
- We need our team to have a positive attitude, even in the face of challenging situations.

- Initiative is key, you will be proactive in taking action to achieve individual and team goals.
- Safety and Wellbeing - you'll take personal accountability for complying with safety policy, standards and procedures.
- You will be able to show good analytical troubleshooting techniques
- We're a team so excellent communication and interpersonal skills are a must.

For more info about us visit our website www.channelnz.com or submit your CV to Careers@channelnz.com for a confidential chat. Applications close 21 September but we will be reviewing applications as they come in.
